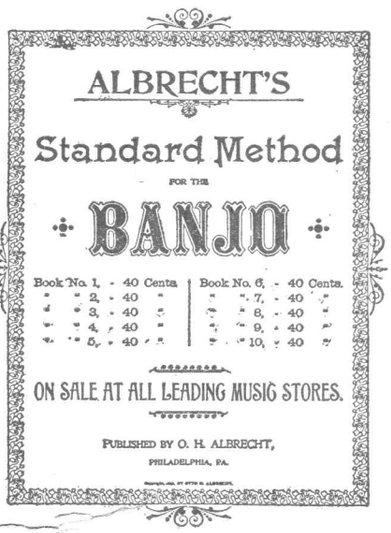
O. H. ALBRECHT'S Standard Method for the Banjo



Celebrated teachers of the Banjo from all parts of the globe have testified that this method is by far the best for teacher and pupil that has ever been published. All the Exercises are melodious and arranged in the most progressive style. The pieces are mostly easy, at the same time very instructive; every piece is beautiful, catchy and very pretty. After a teacher gives this method a trial, he will surely use no other.
